

Disabilities/Mental Health

Darlene Donaldson, Disabilities Coordinator
508-799-3259

The Worcester Child Development Head Start Disabilities department, located at the Mill Swan School, locates, identifies and serves, with the support of the Worcester Public Schools Special Education staff, children with special needs in our inclusive preschool classrooms. Consistent with the American Disabilities Act, Section 504 Rehabilitation Act and IDEA 2004 we provide a full range of special accommodations and services necessary for children with disabilities.

Our mental health wellness program implements practices to support the emotional, cognitive and social health of our children, families and staff. On site mental health professionals as well as community clinicians focus on prevention, identification/referral and treatment/support.

If you have any questions about The Worcester Child Development Head Start Disabilities/Mental Health Department please contact Darlene Donaldson, Disabilities Coordinator at 508-799-3259.
