

Family Services

Mary Beth Adams, Family Service Coordinator
508-799-3225

The Worcester Child Development Head Start Family Services staff work in partnership with families to develop families' goals that support their children's school readiness. Family service staff also provide resource and referral information to families and offer crisis intervention services if needed.

Each of our four Head Start Sites have full time Family Service Advocates (FSA) that work with assigned families and or classrooms to ensure children and family's needs are met.

FSAs work collaboratively with families, education, health/mental health and nutrition staff to ensure students' academic and health needs are met.

If you have any questions about the services provided by our Family Service Advocates please call Karen Waters, Assistant Director/Family Service Coordinator at 508-799-3238.
